**—CONSERVATION COMMISSION ACTIVITIES—**

At the beginning of the year one of the members of the Conservation Commission was informed by the Selectmen that his term had expired and he would not be reappointed. This came as a big surprise to our Commission and our group was with mixed emotions. The Conservation Commission would like to take this opportunity to express our thanks to Mr. Phillip C. LaFrance for his time and diligent work he contributed.

People owning cottages or homes on water front property please take notice: Septic systems near the shore line on any lake or pond are temporary systems, unless they are entirely enclosed and periodically pumped out. Systems eventually use up their filter beds and then start polluting the water. Please check your septic systems if you have doubts. The people at Sawyer Lake have formed a group that is trying to clean up its shores. Keep up the good work. Loon Pond is looking a little better, thanks to its surrounding land owners.

Later in the year we got involved in a discussion on the town's dumps. By the year of 1975 there shall be no more public burning at our dumps. Rubbish will have to be burnt in an incinerator or covered with sanitary land fill. Therefore, our group has been trying to find any land in Gilmanton that might be acquired for our town's dumping purposes.

We invited Mr. Philip McIntyre to one of our meetings and he answered many questions about Scenic Roads. He also contributed much needed literature involving the issue. It is the opinion of several members of our group that more discretion could be used in the cutting down of trees on our back roads.

Much interest and debating within our group has been on reclaiming of ponds, a leash law during winter months, and the possibility of mailing out a questionnaire annually to the residents of Gilmanton as to their wishes.

**NOTE:** On July 21, 1973 a Library Fair was held at the Town Hall to raise money in order to purchase new books. We would like to thank everyone who were most generous in their donations of books, food and numerous articles. A total of \$275.91 was realized from this sale. \$79.75 went to the Library Association. The remaining \$196.16 was used to purchase 24 Adult and 10 Juvenile Books; also a 20-volume set of the International Wildlife Encyclopedia for Young People, making a total of 3,060 books in the Library.

Donations of \$12.50 were made to the Library in 1973 -  
\$7.50 was spent for a year's subscription to National Geographic and \$5.00 to books.

(a) Net cost reduced in the amount of \$54.00 as indicated in "Receipts".

1. Fortunately this department was not challenged by any major fire, structurally or otherwise, during the past year. However, we did respond to numerous fire alarms, which, with pardonable pride as to the availability of personnel, training and equipment, were contained to minimal damages.

2. As of August 1, 1973, fire insurance rates for the town extended to what is identified as an E5 rating. This has meant reduced fire insurance rates on all properties located between three and five miles from the fire station. Those properties located within the three mile zone already enjoyed the benefits of the applicable reduced rates. These reduced rates will result in appreciable savings to all property owners only so long as the Town maintains the required status of facilities, vehicles, equipment, personnel and training. Much of the credit for the change from an E3 rating to an E5 rating is due to the establishment of the Lakes Region Central Dispatch office located in the County Court House, Laconia, and to the tie-in of our superior radio equipment.

3. The foregoing financial statement indicates that substantial sums expended for Vehicle Maintenance, Equipment, Radio and Radio Maintenance.

a. Under Vehicle Maintenance a major overhaul job was done on the radiator and cooling system for Engine ONE, our PRIME vehicle.

Two new tires were purchased for Engine ONE, by use of the N.H. Municipal Association Purchasing Office at a most attractive price.

b. Full advantage has been taken of the recently established purchasing office of the Lakes Region Mutual Fire Association. Through this office we have purchased 100' each of 1½" and 2½" B.F. Goodrich fire hose thereby maintaining our goal of constant improvement in the status of our fire hose inventory. Other purchases through the indicated office has included many smaller items of necessary, new and replacement equipment. All purchases have been made at considerable savings over otherwise so-called "open market" purchasing. All purchases made by the Lakes Regional Mutual Fire Aid Association are accomplished after consolidation of amounts of each item as requests are received from member departments, after which, competitive bids are requested.

c. Expenditures for radio and radio maintenance reflect our goal of maintaining and improving our superior radio alarm system which is, in fact, the life stream of our department. Although it is not obvious, assurance is given, that any fire alarm message given to the Central Dispatch System will be instantly received at thirty-four fixed and/or mobile points of this department.

Our General Electric Model TW-10 Transceiver was installed on Engine TWO, Tanker.

4. As an historical event we wish to record the fact of the dedication of our new Fire Station which event took place on Sunday, July 8th, at a well attended and appropriately conducted dedication ceremony.

5. Much progress has been made toward the finishing of our new fire station. Two catch-basins have been installed under the surface of the front of the station. These basins are connected and are for the purpose of draining off sub-surface water and drainage from our paved area.

The lights and translucent ceiling have been completed for the lower floor of our ancillary facility.

Total requirement of kitchen cabinets have been purchased and are in the process of being installed.

Much work remains to be done, especially within the areas of exterior grading and landscaping and interior painting.

6. The following consolidated and footnoted accounting of the Special Account, Building Account, Bond Interest Savings Account and Regular Savings Account will provide such detailed and concise information relative to the financial actions which have passed through these accounts during the past year.

(a) All department funds other than the Primary Account which is used only for Town Appropriated funds.

(b) On May 31, 1973, following final payment from the original \$50,000 bond issue this account was terminated by the transfer of all accrued interest in the amount of \$940.80 to the Regular Savings Account.

(c) Partial payment on the \$8,000 indebtedness due to Howard J. Lank, Inc., as reported in the Annual Report of 1972. Balance due \$6,500.00

(d) Includes expenditures for: postage, stationary, office supplies, refreshments at meetings and work sessions (coffee that is) Dedication and Open House, July 8th.

(e) Special Account funds transferred to the Primary Account to augment Town Appropriation and to assure payment of all operational expenditures.

(f) Indicates that sufficient funds are on hand to assure bond requirements for 1974. Principal \$2,500.00 - Interest \$2,635.75.

7. Reference footnote (f) above, it will be the endeavor of this department to work diligently toward accumulating sufficient reserve funds in this Savings Account to assure the earliest possible payment of our remaining indebtedness.

8. As indicated in par 6b, above, "Receipts - 1973" our former fire station has been sold. Title to this property was passed to Herman H. Kardinal, Jr., on August 3, 1973.

9. All members of the department take this opportunity to express appreciations for the fine support which has been given to the department thereby enabling us to provide an outstanding fire station and fire service. We have every confidence that our townspeople can be justly proud of these facilities and services and that we will merit your continued support.

**GILMANTON CORNER FIRE DEPT. REPORT  
(1973)**

As in the past, we the members of the Peaked Hill Fire Dept. (now and henceforth to be known as the Gilmanton Corner Fire Department by a unanimous vote of the members present at our October meeting and so recorded by and at the Office of the Secretary of State of New Hampshire in November of 1973) continue to serve to the best of our ability in a service which we feel is necessary in a growing community.

The need for new and interested personnel in the fire department is an ever present concern to us, as it should be to all, if we are to continue this service to and for the benefit of the taxpayers of our community.

Our continued growth and association with the Mutual fire aid association has been and will continue to be to our advantage only if we as interested people and taxpayers can assure our continued growth of our respective departments. The demands placed on our service by an ever-increasing population demands that we as a volunteer department must continue to recruit new personnel interested and willing to give of their time to meet, and train, thereby becoming proficient in the use of department equipment, which is now more costly and complex than ever before.

I feel that there must certainly be interested people in our Town who can and will give of their time if they are made aware of conditions as they exist. If it is worth having, it is worth working for, won't you help.

This department has in the past year been called out eighty-two (82) times for a number of reasons: aid to other departments 20, special service 14, fires 25, training 12, rescue 7, smoke investigation 3, drowning 1.

Our permanent fireman has been stationed here at Gilmanton Corner since July 16th by an act of the fire commissioners.

This past year we purchased with our fund raising and clambake monies two (2) new survival-air packs (self contained breathing apparatus), adaptors for four (4) inch hose, 1000' of used and tested 2½" fire hose and hand lights.

Your past and continued support at town meeting is appreciated and solicited.

Respectfully submitted,

Alfred LaRoche, Chief

Value of Property Recovered \$5,625.84

(The property Recovered figure includes a motor vehicle stolen from another location, but recovered in the Town of Gilmanton)

In 1973, arrangements were made once again through the Governor's Commission on Crime and Delinquency for funding to enable the Town of Gilmanton to continue with Law Enforcement coverage through the Belknap County Sheriff's Department.

The present contract calls for a 12 hour coverage, yet all calls are taken care of regardless of time. The contract calls for 4,380 hours, however from the new record System instituted in January 1973, we find that the Town of Gilmanton was serviced a total of 6,247 hours.

To guarantee that a complaint or emergency will be answered, call the Sheriff's Office, 524-3830 because the office is manned 24 hours a day, 7 days a week.

To report a crime, accident or any emergency:

(1) State location where police are needed; (2) What has happened; (3) State clearly, your name, address and telephone number. If possible, obtain description of person or persons involved, write own registration number if vehicle is used.

Start a crime check in YOUR town. In cooperation with the National Sheriff's Association, we are trying to reduce crime in rural areas through the "Neighborhood Watch Program". This Program is based on YOU reporting anything suspicious in the area of YOUR neighbor's property and he in turn reporting any unusual activity of HIS neighbors.

The Belknap County Sheriff's Department wishes to thank Mr. Osler, Mr. Bickford and Mr. Crosby, the Board of Selectmen for their continued cooperation and understanding shown us during 1973 and we will continuously strive to protect the citizens of Gilmanton and provide them with efficient Law Enforcement.

Respectfully submitted,

DONALD C. ALDEN  
Sheriff

## — REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF —

The New Hampshire Forest Fire Service is represented in every town, city or unorganized place in our state by the forest fire warden. Anyone wishing to kindle an outside fire when the ground is not covered with snow must first obtain the written permission of the fire warden. Except for cooking fires, no fire can be kindled between 9:00 a.m. and 5:00 p.m. unless it is a commercial or industrial burn or it is raining. The fire warden is assisted in his work by the District Forest Fire Chief who works for the Department of Resources and Economic Development Forest Fire Service.

Fire prevention was, again this year, the most important part of the Forest Fire Warden's job. Fire statistics show the need with 72% of the fires caused by smoking, debris burning and children. Smokey the Bear is an important prevention tool but he still needs much help from the public. Parents should warn their children of the hazards of playing with matches. Children tend to forget that a lighted match held in their hand is a potential forest fire.

**A REPORT FROM YOUR CIVIL DEFENSE**

The Gilmanton Fire Department's Rescue Squad (Civil Defense) has continued to meet and train, several members are now emergency medical technicians.

Many hours of time have been given by the members of this squad to train so that they may better serve the people of Gilmanton and the traveling public. They answered many calls this past year. Several for boating accidents (one for which a member of the squad received a public citation for her actions). Another, an automobile accident in which two youngsters lost their lives, the others surviving though seriously injured. On viewing the actions of the squad members, I am proud to report that in my judgement, only their immediate efficient first aid and handling prevented further injury possibly other deaths.

The majority of the public I feel are not aware of the need, nor the deeds of this fine group. As your civil defense director for the past few years I am pleased to have been instrumental in the organization of this group.

The charter members of our rescue squad I am sure would agree that this fine group of people have met and exceeded our greatest expectations and they continue to grow.

Civil Defense funds this year were expended on another boat to be housed in the Corner Fire Station for use on the lakes in this end of town.

Other activities have been very slow in the past year. A problem which I encounter is the lack of space for storage of town properties acquired through Civil Defense. If proper storage space could be found, it would enable us to store all supplies together for easy and efficient accessibility.

Respectfully submitted,

Alfred LaRoche  
C.D. Director  
Gilmanton, N.H.

**STATE REPRESENTATIVE'S REPORT**

The 1974 Special Session will have begun by the time you read this Town Report and we will be engaged with legislation dealing primarily with the Capital Budget and the Energy Crisis. While I hope to report to you at a future date, and in a more comprehensive manner, I hope the following recap of some of the major advances for Gilmanton in the last year will be of interest to you.

In 1971, I circulated a petition amongst the voters of the town of Gilmanton requesting that the Department of Public Works & Highways continue the Gilmanton Betterment Project on Route 107 to the Belmont town line. Now, after three years, the Department of Public Works & Highways has decided to grant between \$200,000 and \$250,000 to upgrade that particular section of road in the vicinity of/and between the town dump and the Belmont town line. I also anticipate some betterment and upgrading project work closer to the Gilmanton Corner village. As you know, last year a major betterment project from the Belmont town line to the Alton town line, which includes Route 140, was completed. These projects were able to be undertaken only because of an increase in state appropriations for the secondary roads division of the Department of Public Works & Highways. I expect that construction will start early this spring and that completion of the project will be some time before the end of this coming summer. While I recognize this has been a lengthy period for completion of a project, it must be understood that every town in the state is making similar requests. I, for my own part, will continue to be active in making requests both for the town officials and the citizens of Gilmanton concerning the upgrading of state highways within the town's boundaries and those of my district.

During the 1973 regular session I introduced HB 87 an act providing for the acquisition of the Shell Camp Pond Dam in the town of Gilmanton and making an appropriation for the purchase, repair and construction of the same. Unfortunately, this bill did not pass during the 1973 session, but it is my intention to reintroduce this legislation so that the needed reconstruction of this dam, which is neither owned by the town nor the state, may proceed as soon as possible. Under the original proposal I would have appropriated state money in the amount of \$42,000 so that the State Water Resources Board would have been able to construct and repair the Shell Camp Pond Dam. The committee, to which this bill was referred, had so many requests for construction and repair of dams that they felt it best to recommend this bill as inexpedient until the Legislature could establish a more definite policy as to the acquisition, repair, construction and appropriations in dams throughout the entire state.

Other legislation which passed during the regular session and for which I was a sponsor include a bill to provide for absentee voting in town elections. This legislation is permissive and would allow the town, if they voted so in a town meeting, to have an absentee ballot system for town and school elections. I introduced this bill specifically because of the request by the residents of Barnstead, and it will be left to your determination as to whether you desire such an absentee voting system.

As in the past, I will continue being available to town officials and agencies to report to them about changes in state laws. As always, I will try to continue to be responsive to your comments and suggestions regarding state legislation and look forward to your opinions and suggestions. This year, with a more accurate mailing list of constituents, I will again be repor-

ting to you and look forward to your response.

Sincerely,

## GILMANTON LEGISLATIVE REPORT

By: Representative George Twigg, III  
Loon Pond Road, Gilmanton, N.H. (267-3232)

As a freshman legislator, I experienced both success and disappointment in regard to the several bills which I sponsored during the 1973 regular session of the House of Representatives.

You may recall during the campaign of 1972, I promised if elected to introduce a bill to permit the State Treasurer to invest the daily receipts of the Liquor Commission in short term paper (Certificates of Deposit) with a potential annual return to the State in excess of three million dollars. You will be pleased to learn that my bill (HB-560) passed both the House and Senate without opposition and became law August 18, 1973.

Another bill (HB-911) with environmental value to a critical wildlife sanctuary in our District, co-sponsored with Sheldon Harvey of New Durham which is now State law, "prohibits the use of outboard motors of more than six horsepower and limits speed to six mph. on Merry-meeting River between the New Durham Fish Hatchery and the Alton Dam.

It was frustrating to lose HB-996, "to prohibit the Belknap (Gunstock) Commissioners from issuing free ski passes to elected officials." My reason for introducing such a measure was to eliminate a repugnant example of favoritism and political privilege. (Last year 154 free ski passes were given away, worth up to \$175 each).

I submitted two bills for consideration during the special session in 1974 which could provide some immediate relief to the small towns who in recent years have found themselves at the mercy of irresponsible and reckless developers.

The first bill states that, "Planning Board Members shall be automatically removed from office where conflicts of interest exist."

The second bill would discourage arbitrary and capricious law suits against small towns with limited financial and legal resources. It stipulates that "If a municipality is the defendant in a legal action and if judgement is rendered in favor of the municipality, then the losing party or parties shall be liable for all court costs including reimbursement to the town for reasonable legal fees."

In closing, may I take this opportunity to express my sincere appreciation to each of you for the privilege of representing the town of Gilmanton in the deliberations of our State Legislature.

January 11, 1974

Office of the Selectmen  
Town of Gilmanton  
Gilmanton, N.H. 03237

Gentlemen:

Here are the totals on the number of animals from the Town of Gilmanton that were brought to the New Hampshire Humane Society Shelter during the year 1973:

By your animal control officer	
Dogs and pups	23
Cats and Kittens	<u>3</u>
Total	26

By Gilmanton residents	
Dogs and pups	20
Cats and Kittens	<u>25</u>
Total	45

Total dogs, pups, cats and kittens brought to the shelter	<u>71</u>
---	-----------

Because of the energy problem, we have extended our hours at the shelter from 9 a.m. - 5 p.m. seven days a week. Cages for your animal control officer are still available 24 hours a day.

Every town has stray and animal problems. We hope the Town of Gilmanton will use our services more this year and that the town will grant the budget appropriation we requested.

Sincerely,

Fritz T. Sabbow  
Executive Director

## Summary of the Report of the 1973 Special Building Study Committee

**NOTE FOR THE RECORD:** This study was made, and report was prepared, prior to the impact of the current, socalled, "Energy Crisis". However, hopefully, the problems engendered thereby may be considered to be transitory in nature the final resolvment of which should not mitigate any of the elements of this report.

1. Pursuant to the provisions of Article 13, Town Warrant for Town Meeting held March 6, 1973, as amended at said Town Meeting, the Selectmen appointed the following committee to study the uses being made of, and the potential uses of, the Gilmanton Town Hall and the Gilmanton Academy Building:

Linda R. Barney  
George W. Bingham  
Neal S. Burbank  
Lucille L. Collins

Wilfred A. Emond  
Jean V. Nelson  
Daniel W. Webster

2. At the first organizational meeting of this committee Wilfred A. Emond was elected to serve as Chairman and Jean V. Nelson was elected to serve as Secretary. At this first meeting the overall problem was discussed in detail and a modus operandi was determined upon.

3. A well attended public hearing was held at the Gilmanton Academy Building at 8:00 p.m., Thursday, May 10, 1973. The free flow of public opinion and discussion which was developed from those in attendance has proven to be most beneficial to the work of this committee.

4. Both buildings were thoroughly inspected by your committee. All present and potential uses of both buildings have been given due consideration. The question of the value of both buildings to the town and the possible sale or other disposition of either or both buildings was duly considered.

5. The full report, which has been submitted to the Selectmen, contains detailed data of this study under the following headings:

- a. The Problem.
- b. Facts pertaining to the Problem.
- c. Discussion.
- d. Conclusions.
- e. Recommendations.

To print the whole report in the Town Report is considered to be an unwarranted expenditure of town funds. However, it is considered that this brief summary of the report, to be printed in the Town Report, is warranted.

6. Conclusions; in brief, are:

- a. Both buildings have sufficient historical merit, monetary value, plus present and potential uses as to warrant their retention as Town properties.
- b. Disposal of either building as Town property could be very disruptive as to public opinion and may involve many complications as to titles and legacies.
- c. Current uses of both buildings are in the public interest, should be continued and warrant retention of said buildings.
- d. Potential additional uses for both buildings are apparent.

7. Recommendations: It is recommended that:

- a. Both buildings be retained as Town properties.
- b. The office of the Gilmanton Town Clerk be established in the Gilmanton Academy Building, said office to be operated during such hours as shall be mutually agreed upon by the Selectmen and the Town Clerk; and that the small office on the right side of interior hallway, first floor, just beyond the entrance be used for this purpose.
- c. An Article be placed in the Town Warrant for the forthcoming Town meeting to accomplish the foregoing recommendation. Draft of Article furnished to the Selectmen.
- d. RE: Gilmanton Historical Society.

(1) The large room on the right side, first floor, of the Gilmanton Academy Building be assigned to the Gilmanton Historical Society for the display of artifacts of the Town of Gilmanton and such other items of historical significance as may come into the possession of the Gilmanton Historical Society by purchase, gift, loan or otherwise.

(2) The second floor auditorium, Gilmanton Academy Building, continued to be made available to the Gilmanton Historical Society as heretofore.

(3) Rental for the above indicated use of said building by the Gilmanton Historical Society shall be one Dollar (\$1.00) per annum, plus any matching funds paid by the Gilmanton Historical Society to the Town of Gilmanton pursuant to the provisions of the following subparagraph.

(4) Any expenditures of Town funds for the renovation and/or maintenance of that area of the Gilmanton Academy Building assigned to the Gilmanton Historical Society shall be accomplished on a matching basis of 50% Town funds and 50% Gilmanton Historical Society funds.

Jean V. Nelson  
Secretary

W. A. Emond,  
Chairman

## GILMANTON PLANNING BOARD REPORT

### Annual Report 1973

During the year April 1973 to March 1974, the Planning Board elected new officers, were active with subdivision review responsibilities, and assisted Selectmen with tax mapping interviews and solid waste disposal problems.

The Board, due to its concern for good subdivision design and the equitable evaluation of all new subdivision in town, concentrated much of its effort on the review and approval of new development proposals. The Board recognizes that local regulations were passed in 1970 to assure that Gilmanton's new roads and housing lots will be well planned and not over-tax Town residents for the maintenance cost of public services (road grading, plowing, fire & police protection, schools). Subdivision activity can be summarized:

subdivision applications/plans received	22
total lots in all subdivisions	63
total length of proposed new roads (feet)	6000
subdivisions approved	17
subdivisions approval pending	5

The Planning Board assisted Selectmen in their work to solve Gilmanton's solidwaste dumping problems. New landfill dump sites, recycling, and maintenance techniques have been discussed as possible considerations. Gilmanton's two existing dumps are limited in size, contribute to stream pollution, and are widely used by outsiders; making them unsatisfactory for long term future use according to State recommendations.

Townwide tax mapping has been investigated by the Planning Board and Selectmen; all communities in the State must have a property map by 1980. Three interviews with mapping consultants were held.

Future Planning Board work will include an effort to improve the existing subdivision regulations making them more readable and complete; and the distribution of a townwide questionnaire to determine public opinion as to Gilmanton's growth and character.

The Type A Hot Lunches were available on 174 days, milk for 179. Average daily lunch participation was 119. Each lunch cost under forty-seven (.47) cents to serve, including all costs but excluding the value of Gov. Commodity foods.

## GILMANTON ANNUAL REPORT

---

A total of \$1,381 in commodities (wholesale value) was received.

Lunch charge to students was thirty-five cents (.35) per meal. Lunches met all Type A requirements, were attractive and tasty. The kitchen staff is to be commended for operating the program so well and economically.

Respectfully submitted,

Gloria M. Kent

## GILMANTON ANNUAL REPORT

---

Pursuant to RSA 195-A:2, the New Hampshire State Board of Education has approved the following Written Plan between the School Districts of Gilford and Gilmanton.

**AUTHORIZED REGIONAL ENROLLMENT AREA PLAN  
BETWEEN SCHOOL DISTRICTS OF  
GILFORD AND GILMANTON**

This agreement is entered into pursuant to Chapter 195-A of the New Hampshire Revised Statutes Annotated, as amended, by the School Districts of Gilford and Gilmanton.

- A. The name of the authorized regional enrollment area shall be the Gilford-Gilmanton Authorized Regional Enrollment Area. The Gilford-Gilmanton AREA School shall be the Gilford High School, to be constructed by the receiving district in Gilford at a site on the opposite side of the road from the present Gilford Elementary School. The Gilford High School shall be used jointly by Gilford and Gilmanton as the Area School and by Gilford as a middle school for grades 5 through 8.
- B. The Gilford School District shall be the receiving district and the Gilmanton School District shall be the sending district; together they shall form the region which will be served by the AREA School. The receiving district shall be responsible for grades 9 through 12.
- C. The rate of tuition for each fiscal year shall be determined annually, and shall be the estimated cost of current operating expenses, excluding transportation and debt service, per pupil in grades 9-12 in average daily membership, as estimated for the preceding school year, plus an increment to be determined by averaging the increase in per pupil cost of such pupils for the two fiscal years immediately preceding the fiscal year for which the charge is made (except that in the first two years of operation of the Area school the amount of this increment shall be determined by mutual agreement between the school boards of the receiving and the sending district.)
- D. Tuition shall also include an annual rental charge per pupil which shall be computed by dividing the difference between (1) the total amount of principal and interest payable in each fiscal year with respect to indebtedness incurred by the receiving district to finance the capital costs of the AREA School facilities plus any other amounts of capital outlay for such facilities not financed by borrowing and (2) the amount of the state construction grant attributable to such facilities for such fiscal year, by the number of pupils in average daily membership in the Area school during the preceding school year.

Tuition, to the extent of the annual rental charge per pupil, shall be payable by the sending district commencing with the first fiscal year in which the receiving district is required to make any debt service payments with regard to money borrowed to finance the capital costs of the AREA school facilities, notwithstanding that the AREA school may not have opened for use.

The Superintendent of the Supervisory Union, for the purposes of determining the annual rental charge per pupil, after consultation with the Commissioner of

Education, shall determine what portions of the capital costs of the Gilford High School are attributable (a) to facilities used by pupils in grades 9 through 12, (b) to facilities used by pupils in grades 5 through 8, and (c) to facilities used by pupils in grades 5 through 12. For the purposed of this section "the capital costs of the AREA school facilities" shall mean such costs attributable to facilities used by pupils in grades 9 through 12 and that share of such costs attributable to facilities used by pupils in grades 5 through 12 which is determined by multiplying such costs by the fraction which has for the numerator the average daily membership in grades 9 through 12 and which has for a denominator the average daily membership in grades 5 through 12. In case of a dispute between the sending district and the receiving district regarding any computation or determination under this section or the preceding section, the school board of either district may request a review by the State Board of Education, the decision of which shall be binding on both districts. The tuition rate, including the rental charge, for each fiscal year shall be estimated by the receiving district not later than December 1 in the preceding fiscal year and the sending district shall be notified of such rate in writing on or before the following December 15.

At the closing of accounts, for each fiscal year, the actual per pupil costs shall be computed. If the tuition charge for such fiscal year was for any reason too low, the difference will be added to the total tuition payment of the sending district for the second succeeding fiscal year. If the tuition charge for such fiscal year was for any reason too high, the difference will be subtracted from the total tuition payment of the sending district for the second succeeding fiscal year.

Both the sending and receiving districts will be fully responsible for the costs of transportation of their pupils to the AREA school.

E. The amount of incentive aid, as provided in RSA 198:19, I and II, shall be applied to reduce the current expenses of the receiving district before determining the annual rate of tuition.

F. The following is an estimate of the initial enrollment in the AREA School from the sending district and from the receiving district:

Gilford	295
Gilmanton	<u>94</u>
Total	389

G. The date of operating responsibility shall be not later than July 1, 1975. In accordance with RSA 195-A:14, Gilmanton School District may not withdraw from the plan for five years after the date of operating responsibility.

H. The receiving district shall bill the sending district and the sending district shall pay said tuition and rental on a bi-monthly basis. The tuition and rental for pupils who

## GILMANTON ANNUAL REPORT

---

attend only a portion of the full school year shall be the product of the daily rate and their daily membership.

- I. There shall be at least one joint board meeting of the Gilford and Gilmanton boards every two months for the purpose of consulting and advising about any and all matters of joint interest, which shall include but not be limited to staff, curriculum, policy and budget.
- J. The Gilford School Board shall give the sending district progress reports and attendance reports for the pupils enrolled under the provisions of this plan.
- K. Guidance services by the receiving district shall be made available to all pupils of the sending district for grade placement and subject placement in the Gilford-Gilmanton AREA School. It is further understood that the same pupil regulations will apply to the pupils from the sending district as to those of the receiving district.
- L. The AREA plan may be amended by the districts comprising the region consistent with the provisions of RSA 195-A, in the following manner.

Amendments will be effective only if such amendments, approved by the State Board, are submitted to the voters of said districts, voting by ballot with use of the check list after reasonable opportunity for debate in open meeting, and only if a majority of the voters of said districts who are present and voting shall vote in favor of adopting such amendments. Furthermore, no amendment to the AREA plan shall be considered except at an annual or special meeting of said districts and unless the text of such amendment is included in an appropriate article in the warrant of such a meeting. It shall be the duty of the Gilford and Gilmanton School Boards to hold a public hearing concerning the adoption of any amendments to the AREA plan at least ten (10) days before such annual or special meeting and to cause notice of such meeting to be published in a newspaper having a general circulation in the area before such hearing.

Additional grades may be included in the AREA plan pursuant to the provisions of RSA 195-A:13. Five years from the date of operating responsibility it shall be the duty of the joint school boards to study the advisability of forming a cooperative school district under the provisions of RSA 195-A:15.

- M. Students from the sending district who complete grade 11 prior to July 1, 1974, may, if they desire, attend grade 12 in schools other than Gilford High School. However, the sending district will not be responsible for the transportation of high school students who do not attend the AREA School unless voted by the sending district.
- N. Any complaint by either party under this contract arising out of interpretation thereof, not resolved after conference, and a procedure for which is not provided for herein, may be referred by either party to the State Board of Education, which shall hear the parties and decide the matter. The decision of the State Board shall be binding on the parties hereto.

- O. This AREA plan shall not become effective in the event the receiving district fails to provide school facilities necessary for its implementation.

IN WITNESS WHEREOF, this agreement has been executed as of the 19th day of December, 1972.

**TO THE PEOPLE OF THE GILMANTON SCHOOL DISTRICT:**

While I have only served as your Superintendent for six months, I, nevertheless, feel that I have come to know a bit about your school and the community it serves. The homelike atmosphere at the Gilmanton Elementary School with its friendly staff very much reminds me of the school I attended as a boy in a part of Long Island that was, in those days, quite semi-rural.

Because of the small size of the school and its classes, your teachers are able to know each other and the student body much better than would ordinarily be the case. I am sure this has resulted in more effective service to the children. I find your school well equipped. You are served by an excellent staff and the building is truly an after hours social activity center for the community.

Next year, as you all know, Gilmanton students in grades 9, 10, and 11 will be attending the new Gilford High School. When completed, this high school will be one of the finest physical plants in the state and we have every reason to believe that the Gilford administrators and school board are now busily working to assure us that the faculty that will serve there will be of the same quality.

While the school budget currently under consideration shows a very large increase, we must, nevertheless, recognize that a problem of long standing in this district has at last been resolved to the great educational benefit of your boys and girls.

I sincerely hope the educational collaboration between your district and Gilford proceeds harmoniously during the years to come.

Respectfully submitted,

ROBERT W. MUSGROVE
